

FAQ's

How much TV do Canadians watch?

Canadians watch 23.7 hours of TV per week?

I've heard young people don't watch TV – is that true?

No. Adults 18-34 watch 10 hours of TV per week (most of it live)

What is TV's reach?

TV reaches 87% of Canadian adults every week.

How much TV is watched live?

87% of linear TV viewing is live (also 87% for A18-34)

How does time spent watching TV compare to time spent with YouTube?

TV far exceeds time spent on YouTube: A18+ watch 5x more TV than YouTube, and A18-34 watch 40% more TV than YouTube* (*YouTube time spent includes listening to music)

How does time spent watching TV compare to Social Media?

TV dwarfs time spent with social media: A18+ spend 8x more and A18-34 spend twice as much time watching TV than they spend on social media* (*Facebook + Snapchat + Instagram + Twitter + TikTok)

How many impressions does a TV campaign deliver?

The average TV campaign delivers an astounding 337 million impressions.

How many people have TV subscriptions?

Over 10.4 Million HHs have TV subscriptions (down only 1% from PY)

Everyone multitasks these days – are people even paying attention to TV ads?

Yes – more than any other type of advertising

Do TV + Digital work together?

TV and digital make a great combo – in fact TV will improve the performance of your digital media by an average 19%

Does TV have a good ROI?

TV has the best sales ROI of any medium, delivering a \$14.34 return on each media dollar spent (and \$23.40 if you extend the period from 1 to 4 years)

These numbers don't ring true to me - what sources do you use?

We use accredited, third-party sources, including Numeris, Comscore, and many others. No walled gardens, just the facts.

Canadians watch a lot of

AVERAGE WEEKLY HOURS

* Total TV = viewing to broadcaster linear TV plus any broadcaster content that is live streamed on other platforms with the linear commercial load intact. Does not include streaming to OTT services.

10.4 million Canadian HH's have a paid TV subscription

Cord cutting has been far overstated: total subs are down less than 1%.

The notion that “no millennials subscribe to TV” is also false: 62% of 18-34 year olds subscribe to TV, and they’re also accessing linear TV out-of-home and via streaming (which is how TV is able to reach 78% of A18-34 on a weekly basis).

	June '20	June '21	Index

trusted sources

Numeris is an audited, transparent, tripartite, not-for-profit Canadian Broadcast industry measurement organization, whose voting members include Advertisers, Agencies and Broadcasters. How it works: All Canadian television signals (and many US border stations) are encoded with a distinct audio tone. Viewing data is collected through a personal portable passive meter on a minute by minute basis, 24 hours per day, 365 days per year. The PPM device captures Live and Playback viewing (when the sound is on) both In and Out of the home, as well as live streamed content on PC's and mobile devices. Data is downloaded and verified on a daily basis. The data collection is panel-based and includes 11,000 Canadians (4,560 households). The panel is statistically significant and balanced to the population through StatsCan census data. Homes included in the panel include those with paid subscriptions (cable, satellite, IPTV) as well as internet only homes.

Comscore is a global third party Digital measurement organization that measures second by second data interactions across Desktop and Mobile devices (regardless of whether the sound is on or off). Data is captured continuously, collected from a census based panel of 40,000 Canadians, and reported on a monthly basis.

Supplementing the 2 main audience measurement services, we also access information from a number of other research studies and measurement sources, including:

Accenture	Nlogic
ARF (Advertising Research Foundation), member	Media Stats
Brainsights	MRC (Media Ratings Council)
CRTC	Nielsen
Ebiquity	Numerator
